Premium Range

2017 Botrytis Semillon

Tasting Notes

A fragrant nose of peach citrus blossom with a luscious palate of honeyed apricots. A delightful wine to finish a meal with or enjoyed on its own slightly chilled as an aperitif.

Winemaking and Viticulture

The Semillon grapes are left on the vines well beyond normal harvest time, this allows the Botrytis Cinera also known as Noble Rot to attach to the grapes causing them to shrivel, deeply concentrating the flavours, sugar and acid. This wine is only lightly oaked to create a light fresh style. All the fruit is sourced solely from Shaw Vineyard Estate's Murrumbateman vineyard, an area renowned for production of premium cool climate wines. Stelvin closures are used for freshness and to ensure long term quality. This wine will age gracefully further developing the characteristics renowned of this type of wine.

Closure	Stelvin	Alcohol	12%
Winemaker	Graeme Shaw & Jeremy Nascimben	Res. Sugar	140.8 g/L
Grape Variety	100% Semillon	Cellaring	8 years
